Employees are the Backbone of All Successful Businesses

◆ **Make your Sales Staff “Order Makers” instead of “Order Takers.”**

Whoever has high sales at the end of the month gets a vacation. This will encourage them to suggest higher-priced items. It gives your Staff an additional incentive while increasing your premium item sales.

◆ **Try the “Star System” to reduce tardiness and missed shifts.**

Any employee who does not come in late or miss a shift in 10 weeks gets a vacation. They must accumulate a certain amount of “Stars” within a specific period of time. If they lose a “Star,” they can earn it back by “subbing” in.

◆ **Safety First.**

Many large companies use our vacations as safety incentives.

◆ **Vacations are fun for everyone!**

They create excitement among your employees and that will increase your business.

◆ **Attract New Customers!**

Remember, you can use our vacations as an excellent promotion to attract new customers, as well.

◆ **Employee Bonus!**

Would cash bonuses of \$49.50 excite your staff? Try giving Casino Vacations instead!

Our Vacations will Increase Employee Performance!
